

ALICE pp $\sqrt{s} = 5.02$ TeV

Anti- k_T charged-particle jets, $R = 0.4$, $|\eta_{\text{jet}}| < 0.5$

Functional fit (M. Jaarsma, et al)

$$C \frac{\langle p_T^{\text{ch jet}} \rangle R_L}{(\langle p_T^{\text{ch jet}} \rangle^2 R_L^2 + T)^{3/2}}$$

$$T = 12.46 \pm 0.37$$

$$C = 10.36 \pm 0.32$$
